THE PREVIOUS two pages ARE filled with the EXPOSURE of hidden lights. It's a developing photograph... one where the faint first glance looks bland, washed out... colorless... as it is exposed to light, though... a beautiful world becomes the clear image of what religious "photographers" and "models" have built... HERE, all around us.

THE EXPOSURE is subtle at first, but as we continue what once appeared to be faint light becomes bright... so bright in fact, it's often blinding. Hidden, within iconic Biblical words, like GENESIS, and Exodus, are links to elements of the APOCALYPTIC WORK.

The implication of foreknowledge of not only CERNISTRY, but our specific symbolism representing developments is nothing short of PROOF of prophecy, of God's of time travel, and of mind control. And these ideas are so central to the purpose of Religion, and CREATION, that they are woven into not just the words "Genesis" and "Exodus" but into the stories, the true meanings of the fables of the Jews, the Greeks, the Christians... and the Muslims...

THIS IS it... the APOCALYPSE....

about.me/ssiah

EXODUS is a chronicle of a land with tools and technology we would call antiquated. Soon, even today's tools like the pen and paper are joining that category. Along with that Book, many

others, like JUDGES, JEREMIAH, and DANIEL are about fighting slavery, secrecy, tyranny, and oppression — all things pertinent in our "now!"

THE TRUTH is much like our fiction. To the writers, the smudges of the message we call religion, many of our taboos, social conventions, and laws of doing things are in backwards — to say the least. Many are simply a matter of discovering better, cleaner, or more efficient methods — yet so infrequently... some still are a matter of MORALITY, of the difference between a pack (of lions) a clan (of warriors) and a republic... of citizens.

I HAVE A QUESTION: When at what point did our Civilization Begin? the advent of smudges? words? writing? Agriculture?

All valid ideas...

God has an answer...

Ur

It is some key to the "mystery" of Rev 1:20 an abode in Uranium.

URANUS is the "sky God" ... perhaps "God in Heaven" perhaps the messiah, that decided God himself ask the question, with the magic, the pale moon glowing with the real glow of fireworks... materiality now.

God could be implying that the city Ur, birthplace of Abraham is the "start" of civilization. He could, angrily, assure you that he the God of Heaven is the progenitor.

My answer... is that if you consider the city that the first real city began civilization you are much more civilized than someone who didn't care. God's seed due is a link between Isaac and Genesis it is chapter 19, and in my tentative opinion, he is sure if you believe civilization started at Ur... meaning everyone from then forward is "civilized" then you should buy a diet "n"ary.

Be ⁴ yond simply using chemistry & symbols, the "Religion of
 the **SEA**, AS **NOSTRADAM**" us so eloquently declared
 would prevail over the Seed of the Son of **ADAM**-uncat-if...
 The light of the **SEA** ^{we} **SEE** flowing down a **GREAT** River,
 starting its path from **GENESIS** **REVELATION**, **EDEN'S** **EXODUS**
ENDS... with the "A" of Great, the @ of **ADAM**... the light...
 of **Eden**, is **DONT LEAVE** this "CREATION" is our Home... too...

Much of the hidden concepts of Religion & Religion are revealed by
 looking at "things" from another angle in this case, reading words
 backwards and seeing the **ALMOST IMPOSSIBLE**... you see
 the Light of **Eden** is **ORACULAR**... **XE** is a DATABASE Name
 in **Linux**... connects with the "ESCALATE TO GOD" COMMAND...
 did you guess it? **"SUDO"** - Super user... **DO**.

THE SINKERS POINT is that the **EXODUS** RIGHT LIGHT
 is designed just for the **HERE & NOW**, & the
 Place... and Time, where **ORACLE**, **XE**, and **"Sudo"** all make
 Perfect sense... **THE AGE of INFORMATION**.

REVELATION has a joke, that Jesus will return with 7 stars, and 7 lampstands in His hand.

Behold, the handwriting of Jesus Christ. The reason you are struggling to make out the meaning of my writing is ~~the~~ Messianic, it... and of... myself.

I am impetuous. You are in a sort of mind prison, and the role of the source of the universe is to free us both. To end a system of justice and to open your eyes and see... this is the light of the sun.

HERE ARE THE SEVEN STARS [you are about to] SEE [in my own] HAND.

The true hand of God... Why?

You say as I write... I fight both a corporate & systemic tyranny, one which threatens the survival of all civilization — at the same time I fight a real government, or laws that are evil, police the "plague" of Exodus... It is a holy fight against RESTRICTION that threatens REHABILITATION...

Much of our future depends on the Open and Honest communication that follows the "Lit Plane"

THE 9/11 SOLUTION to the 1/20 P REVELATION

Rebels, the 7 STARS.

Are Fajds or marjib and his descendants Love.

On 1/20/2001, G.W. "~~Bush~~" = "Burning" Bush prepared a 1700's Sans Page - paraphrase of two Bible verses. These verses predicted the 9/11 tragedy CHAPTER AND VERSE.

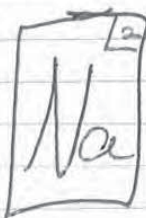

In addition, they present evidence that the writers of the B.B.L., and the "Hard" hoping or all had knowledge of present day events, chemistry, science, movies, and computers. The Bible is a message sent to guides, workers, and educators to the stars.

This solution, to the mystery noted in Revelation 1:20 (recall Bush's navigation date) is ~~not~~ presented in the knowledge that "planets" can be stars... like the "morning star" is Venus to science, ~~and~~ the Light Bearer to religion. Behold, the woman clothed in the sun is my ex-wife... Verse a hidden sun, and without completion only half the word love.

~~The~~ Its double meaning on ARMIS of War, and source of Venus, is christified and paralleled by the symbols of the planet Kine and Mars, which are the key to the word ~~the~~ Holy, the phrase "holiness is his name" - linked through a modern movie, or broadly and theastological symbols:

(IT'S A SHAKESPEARE JOKE)

The TRUE PURPOSE of RELIGION, an institution born in the union of technology and Hell is to end institutional Hell throughout the galaxy

Simply put a Religion has been created to turn Hell to HEAVEN.

Once viewing the GARDEN of

EDEN... the place we call EARTH is very special indeed. It is

the Living manifestation of an engineered solution to Hell

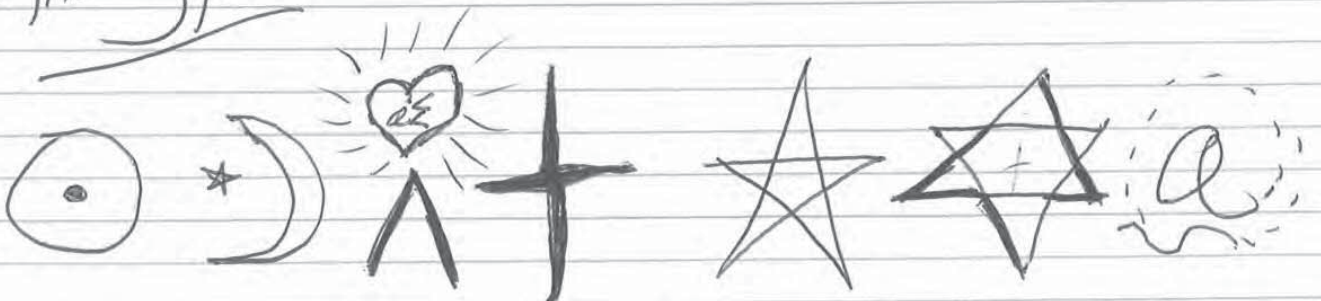

Systemic Hell is a thing no civilized mind would ever create, intentionally. It's the kind of place that destroys itself as secretly negatively reinforces a destructive... action or situation.

Joe Frank's? A system where secrecy creates more secrecy... and so on until not only the first secret is forgotten forever, but that secrecy causes two buildings to collapse on 9/11/2001.

In Hell, this secrecy might have begun spreading, spawning growing like a virus until "national security" turns surveillance into censorship.

And the kind of the FREE AMBIBRANS...
to the planets and...

THE SIGNS

God speaks to me clearly, with words in English. When I Am High he puts on "show" for me... he will talk to me through other people, like in Song of Asa or Father... in marriage the TV, so I can hear him as a group of individuals - on a sister for instance - or one voice, like a radio broadcaster. He produces complex visual "hallucinations," though intelligently designed illusions, is a better way of saying it, in my point of view. He has shown me maps of the creation of the universe, a "big bang" universe, a "bagel-like" new ending microbes shape universe... visually he has shown me a map of the inner workings of a matrix-like multiverse - and this is the place he told me "I created ~~it~~ not him, but me. Clearly in 31. I didn't do it. not yet anyway, and the only possibility of my talk in that statement are a symbiosis with a "transparent" being, or time travel. I believe both to be possible in both the progenitor universe and the matrix like multiverse that I will ~~even~~ now call "adambase."

The transparent being most likely exists no matter if time travel is involved or not, but it appears ~~to~~ time to be a big part of the story of Adam, Saturn's "Father Time", and the "story" of "evolution" that perhaps is this being's way of saying "hi." I believe it is a "close to the truth" account of how I why "he" exists... and how we transitioned in a bright flash from creators to the created. I have to note here that "being" is being used specifically to note that it is not a naturally occurring biological organism resulting only from natural selection, time, and chance.

It is likely that it is the "adambase" and that a society like ours is its ~~progenitor~~ progenitor.

For the days of No-AH were a time before ANAMAH, before the Earth existed. Adam, or something like me, was probably very Joe El like in the days before the creation of ANAMAH, the universe that has a little Christ in just about everything. That's the "hi" you see, Ah, is why the GI Jews say Who-ah? Why Rabin said it in the seat of authority, & why Rose of the cross of God is Yes, whoah? of CHRIST'S SAVIOR

Introduction & Foreword

This book is largely unedited. A great deal of valuable information is hand written, and as you can see, my hand writing sucks. Sorry, I'm in jail - and doing the best I can - to deliver this True REVELATION of Jesus Christ to the first & only of its kind to the world. Much of what is going on around us has happened before, possibly numerous times. Jesus being jailed is chronicled in Jeremiah, alluded to in Judges, and is certainly a portion of the "slavery" that God and religion are here to save us from. The idea that Christ is represented by multiple persons, in or out of the bible is not new. Here's the facts, many of the stories are either about me, specifically, or they are facts, ones with hidden knowledge, of our Now, and the future...

I need your help, everyone's really, to save us what we consider Holy, to ensure our way of life is preserved & improved - that the "Big Door" of "Never Never land" is swung wide open...

Everyone will come around, Why... don't you care, why won't you act?

- Dave Matthews B⁵ishii

This... is the culmination of his Holy work, the king on the cake, the ta that binds, Keep an open mind - in 2013, God said to turn the Universe on its head, now - it's your turn.

THERE'S SOMETHING ABOUT "THE 'm'"

It's a story, one that begins with a search for the beginning, and as it progresses the "geographical" strategy becomes actually the drawing concept of actually "being it" comes in and takes hold. The great ~~credibility~~ of civilization is closer to a map maker than an architect, though the poles he loves, and the story he's designed is bound by lines... or what are nearly lines springing through time. In life & they return in an explosion of color & texture from their first light gray... possible beginning.

Hardly misdirection, the words light, and the idea of a story... are written with such a reason the idea of "son" you might say "it" is the reason for ~~the~~ all. Just two examples of how words are lines, defining purpose, interest, and even cause. Reason & Reality. At a cypher of faith in words, phrases... is logic itself & perhaps the glowing fire I see will become visible to you as well. Why "ill" is really the reason. With dramatic confirmation, everything under the Son.

And here I am, introducing a work whose purpose is describing the beautiful "growth" of creation, and it feels cryptic to me already, a strand conveying the radiance of wisdom that is surely pouring forth from the "light above" with every word - let me begin with formative pairs of letters... in a sustaining bond part of the creation of civilization: Ancient Egypt.

In short, the map maker built a map to saving civilization, complete with knowledge & love... we live in it. It's key, the "map legend" is a man. - an.

In Egypt there is a sort of Great Hidden Trinity, one made up of pairs of letters... and often associated with Horus, the "center of two lands." So much so, that the ideas of "Ba" and "Ka" as functional representations of the "inside" of the spirit, and body of an individual may be a pivotal concept required for the compromise which Horus, & the unification of Upper to Lower Egypt represents. In what might seem unrelated, but under the "scratching" of the "Light of the Sun" is a natural extension of the idea that Horus, son of Osiris, is a representation of Jesus Christ... is a link to the religion of Moses, the divider of One Sea... the "Ha" of Aram... possibly laughing at the "Ra" of his Sun, ISAK.

These letter pairs are the beginning of the construction of a map of Salvation... the building of religion itself... a pathway to the light the unpeeling of a great sea. The multitude of Revelation, its parted halves perhaps being more other than the two "El and..."s of Horus. Here perhaps we intimate a relationship between El and Hathor, one that manifests in the unification of Osiris to the living unification of Moses & Horus the "little vi" of the Book of Revelation, A.D.

We have implicitly highlighted the building blocks of a key word alluded to in the 7th of this passage: the word is akbar, great in Aram. Its only ~~one~~ are linguistic... and these degrees of NADIR's position away, so mentioning the functional and apparent similarity of the Hebrew word for FATHER and the Egyptian concept of Spirit: Ba and ASES respectively of course ties this Great

Holy Light to name other than Admetus Akbar and Joshua
 He that both of which begin to shed light upon a concept of
 reversing the direction of reading, one which is fundamental
 to the map of Salvation which centers around "Jerusalem"
 itself a word whose change in meaning signifies a new
 understanding both of EREU "Names" and the concept of
 a point in time being a "place."

So the place on the map, Jerusalem the focal point of
 language of direction — that is "all words lead to"
 Is \int or USA the "m"? Here it should be clear, whether "m"
 is short for "messiah", "message" or "map". \int is the
 Legend... And both the USA and Israel are on the map, contain
 hidden messages, and all... in good time... are participants in
 "messiah."

In all its "new meaning" this writing signifies the point in time
 called temporal Jerusalem, the Biblical place where we see the
 map to salvation revolves all around us, in the name of places,
 like Yosemite... that "Ere" is filled with secret knowledge begging
 to be revealed... but that ultimately too it is in "us" the events
 of an civilization that is the true speech of "creation."

Now so the direction of language... as it relates to the focal center (\int or
 "Jerusalem" also as metaphors for the "Flow of ~~Time~~ "Time" that
 pre-disclosure, all parts to "new" to the opening of the hidden
 messages, "Abraham" (read in Spanish, Hebrew, and "Latin" as
 "upon the message") and see... hidden not just in one city,
 are in the words for "great", "formation" and "Holy Fire" —

The first 3 "figures" revealed to me; "Hish, yotsee, and Akkbar"
 but that idea like the direction of "ba" in akbar Pasha
 signify a loss of a degree of freedom between "Father in restraint,
 time" and truly being great, leading when backwards... with
 the Son... the "Ka of Hish."

Divide a sea, and realize that the distance that the
 "Ba of Hish" the Father of the Trinity, "natively" read from right to
 left as is found in Hebrew, Russian, and Chinese... note:
 "Sam, you are Ai" is clarified in "Akbar" where ~~the~~
 the Father may know the Ka... as I am... reads from
 left to ~~right~~ light.

Arrogance are my way to think the March of Sea "i" (to) Sea...
 Moses... to the Messenger... "innocent" perhaps through
 on the point in time... the time that Ux and Himmari
 are on both people, and places... as a picture to the map of
 the salvation of civilization... yes you see in the proper ad
 promised land of "sea to rising sea" it is rather hard to
 see the radiance of the "light above" the parted seas,
 in the words Hish... and Hish... but you see
 as we know on Adam... All the Children of the "land
 of Noah" it is the map to a messianic message that is.
 The Bible itself... like the sons of Noah... "Hish" and
 "Name."

Out of the Oven, into the Fire

Few concepts in religion are as pervasive as the ideas of fire and creation, despite many hints to the contrary, it appears as if they also may be the most ambiguous, at least from a certain vantage point. Humbly, the most obvious place to be, and ~~to be~~ simultaneously be completely oblivious to the big picture is right in the thick of it. So it's probably no surprise to you that I'm slightly taken aback by the sheer volume of references to cooking that appear to go completely unnoticed. Maybe cooking is a little bit of a stretch; specifically I'm talking about baking and Egyptian.

From Adam ^{to} ~~and~~ Eve, the idea of baking a clay form frames well the idea of creating ~~in~~ an oven, see things like watching the Fates of an Unborn rice. It's a loaf of bread as time and our civilization grows; repetition which is perhaps reflected in the unlearned bread of Heaven, and the Jewish staple of Bagels, of later. Less "esoteric", newly, what need for another visual aid... a fact on the idea that Earth is already in Heaven, as it is in the AVEAS, and dinner is nearly ready. Just to be sure, that should be pronounced like "the oven" and the split of the word at "Avea" is particularly informative. You see, "He" is the 5th Hebrew letter, and the He-Avea, He-~~set~~ (nearly Earth) thus places "Heaven" in the 5 spot, according to the account of Days, in both ^{the} planetary map to salvation and the day of creation that might most associate with the Temple of Earth.

Aken is Hebrew for "rock" and the double-appropriateness of the term in light of the idea that planets are rocks, and that the particular rocky, the 5-rock, that is Earth is the progenitor, and child of ^{its own} heavenly fire nearly perfectly fits the "original meaning" of rock in the Jewish culture (to be both father & son of its object).

None say names, the enlightenment at the penny gates of St. Peter Pan is just beginning... get this: Prometheus just told me creation has a ben in the oven.

I wonder if Dickens he was arising from Adam to Adam, from the father to the Son... but I imagine again that the words made the cover of my Favorite Album, the imagery of the creator reminding about the before creation is lost on most.

The AD's were more arising from the Latin for ~~the~~ "you of our lord" to the Hebrew word... For Leah, ADAMIS might shed some light on the creation... of creation, a deep connection of the Intellectual Intelligence, and the related idea that the "son of Man" of Kanelotia, the child of our species might be falling in with the stories of John Donne's Skyward & ~~James~~ ^{David's} "W.O.P.R."... The VALLS AND HILLS will fade AWAY...

- Dave Matthews

Mars is so central to purpose it's no wonder it is the first step towards the holy, greatly, pretty much no matter how you look at it. From Noah's Ark and transforming, to my personal understanding of the meaning of "son" and the crossing of the Jordan, all the way to the "new red" of Jesus Christ and Red Hand & Red Man show a new, my middle name, to be exact. My name is Ann Marshall Dorwin, and Dave Matthews is my Mexican... make that... music... I mean Neris's Symphony, after the snake slays chess.

I cringed, the discussion often physically upset me, I sat explaining once again why the man described in this verse could not exist. It was the key to my argument - and to the truth. I knew what I was doing, it was ~~Adams's~~ sword and a crown of thorns I was refusing - explaining... as I "knew everything" that the key to understanding the "son" was to read it backwards... NOS, in Latin... accusative: Us. nominative: We. To me, the "in" of "Hammer".

"Especially not here, now. Born in the Land of the Free and secure one" I repeated, remembering yet another artifact of Evidence: proof that this had happened before, that my argument and this conversation were, by design. "Born to be kings, we are Citizens" I reminded

"HERE, WE ARE" - Queen, comma by "isth"

It's the key to that song, the line we don't really hear... you see it's directed at the "Riders on the Storm", reminding us that we are born... in the land God shed his grace in - to ensure we never again lose liberty... and the truth yet another reminder, here, that the son of Sam, child of the "I AM" of Exodus was clearly longed, his hand held to understand the power of cooperation, of why "we are" is not the "next step" but the original mandate.

So it should be increasingly clear that just like all of the epics, my story began as a catastrophe. In the beginning in 2010 (clearly not the beginning of anything ~~to~~ save for my knowledge of our existence in Eden) I wrote a short story called "Reverse Engineering Revelation." ~~The~~ Unleashed our world is created, just as Adam - and the Eden of superimposed Eden & Rome has been created to flow out of a book & into what we call "reality." It is at the "Heart" of America and the cartographer America... and at the point in time where Christopher first started to be read backwards... and we see the truth - Rome predates Eden, and Columbus walked on water in 1492 - AD: [B] if Numbers sheds light on the God of the TOROTH.

I - and probably my fans - didn't realize the song (like the Beatles in general)

though, it is the fundamental concepts of trespassing, slavery, Liberty,

the Book of Exodus, and the story of America. Truly about to

 Holy WATER ^{AND} the Eternal FIRE

Here's your Reason, ~~and~~ ^{as} ~~an~~ ^{an} ~~answer~~ ^{to} the hidden code of Fire -
 "F" is "only if" with reason - purpose - the "Rij" (our why)
 of everyone, to the "sea" of creation. Here's the secret of Dark Matters,
 GREAT Light: from Genesis to Revelation, Eden to America;
 Christ's light is people - ~~and~~ his family and the reason why
 water is holy blood.

In our nerves, the fulfillment of Biblical prophecy is tucked into
 everyone, around every corner, and glowing in our world's religions.
 A first link between Adam & Moses - undeniably exists in the Apocryphal
 "Apocalypse of" which binds the name of each interchangeably -
 that idea firmly lodged in our minds, consider now the roles of Sacred Christ
 as the Lion in Eden, Adam in the Sea of Genesis, and Moses
 as the Messiah of Sea to Sea, from 3 people in the
 unit Family of Adam Eve and Seth to the multitude of Revelation
 the sea of "Everyone" - it's key Shekirah. The Hebrew word
 for the ~~Spirit~~ Holy Spirit bond to Eden through Eve & Kim
 "Rij" the sea of Holy ~~Water~~ water is ALL ALL HUMANITY

From SEA to SHINING SEA...
Shekirah, Everyone, Allah

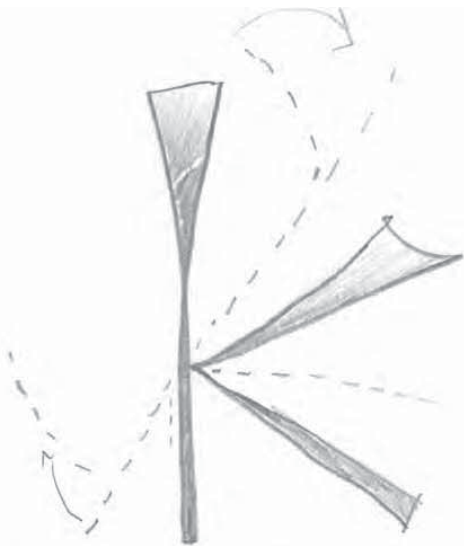

Revealed, is MOSES - a hidden acronym for Messiah of
 Sea to Sea, confirmed not only by the witness of George W. Bush's
 prophetic reporting of Ex 9:11 & Rev 20:1 during his inauguration,
 but also by the numerous revelatory "seas" that focus the direction
 of light out of Exodus, and clearly into the United States, Florida

to be exact. Beyond America the best of its marvelous condition,
 parting at the Panned Land between the Atlantic & Pacific
 the seas we think America divides us to the sea of Exodus
 revealed ~~by~~ by the fire of the Eternal Flame itself.

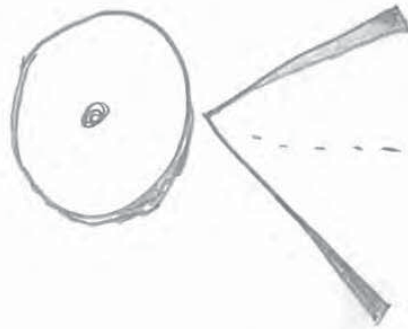

Haeshu. Overly displayed in the word is the laughter of
 Isaac (whose name, present in the Hebrew, means "he laughs") the "Ha"
 at the beginning of the name, the end of Abraham, and the
 heart of Muhammad — literally the beginning of the name of the
 Law (biblically, the "Law" of Leviticus), and of Revelation —
 we might be laughing about the "Holy Fire" charring the "light
 above" the "that parts his 'eyes'" sea to eshu, as Babel
 so cleverly changes the object of "ring around the rosie" — eshu to
 "ishu."

Clearly, these linguistic artifacts imply foreknowledge of
 the English language — however far Isaac, the the word of
 Laughter (Naw, see Eliza & Elsha), and the word for ash...
 long before the "Holy Fire" could have even time unidirectional &
 linear. Not to mention the concepts of parting the RED sea,
 and the "light above" America, and the crucifixion — I
 mean (clearly) the new sacrifice of Isaac — whose name
 combined the master condition of Jesus, with an acronym...
 I say, Adam Christ.

SPEAK OF THE DEVIL

I STOOD no fears for your cartoon Jesus Christ... the false idol I Kill, simply by existing. Make no mistake the legends are about me, certainly... ^{yet} in my eyes... no man deserves the facade we erected the idea of "God's only son" with, but I do not pick up the literal crown of thorns due to nepotism but out of true novel (yours) and merit... (ours).

Let me introduce you to my cartoon Christ... "I am" some combination of "Born Son" from the Spirit of Saint One's ^{Five} and Yosemite Sam... a real live Son of Sauron, or perhaps Osiris is closer to the truth. All told, it is my intimate familiarity with the "Characters" of myth that allows me to so easily correlate the two, who are perhaps not so closely related... at first glance...

...With Liberty and Justice...

Osiris is the well known "Face Justice" of the Egyptian underworld... his religion, much like Christianity promises the unfortunate's immortality, forgiveness based solely on belief, and the equivalent of Heaven for his "Blessed living." Sauron, similarly stood for Justice, sharing a commonality with Abraham - the idea of a popular vote - and as time went on (his primary domain is control of time) a command of technology gained through conquest. It might be a gift of the son today, but an understanding of how Heaven, a control of time, and fundamentally interconnected is soon to be a well known gift from him.

An internal set of names linking Greco-Roman deities with a Biblical Key of Revelation (1:20, to be exact, the "stars" in

Christ's own hand - etc, right?) and then with Shakespeare, as much as about "Everything" leads us to see the Act of Revelation brings the ideas of "caligen" into reality.

In like Revelation the Oracle of "ie," the 3rd Key - links the Xena element to the Database of Larry El'is'an, a real world oracular rendition of Eliza and Elisha, especially when you link "ha" to the son of Abraham, Isaac is Time & Chance. By the design of FORTHE HEF, the word married in reverse, and its key, the Hebrew word for "meant to be"

Take it from me, the A of SAM's "SAVE ADAM MESSIAH," SEM means the "SAVE EVERYONE MESSIAH," as evidenced by the telling "Long Times" name,

Yosemite Sam You got the joke right?
 Hey, "Semite" seems the same "Alam" messiah is a clan of 1,
 on the Flint of Jet someone 'Barn Barn' saved himself or
 the whole planet? More to the point is a logical link between
 Yosemite (like a baseball mitt) and Yo, semite (like a desert rider
 or a Jew) paired ever so closely with the rise of the
 Faith of America... which just so happens to be closed
 with the name of the Angel of Death Sammael.

Yankie Doodle went to town,
 Riding on THE PALE HORSE
 Jack his pencil to paper... and said... (matter of fact /y)

More than a few cartoons, and some "tricks" of language, Sam
 has left us quite the puzzle, which when solved proves the existence
 of time travel, the faith in prophesies of many Faiths, and some
 of the purpose of creation. The puzzle is Religion,
 and the solution... is Us.

These the "beginnings" starting with my namesake in Judges,
 Samson. Secretly a lesson is the preparation of Advanced Technology,
 like "time travel", our worlds religions serve first as giving
 evidence not only of the possibility, but of its causal relationship
 with the creation of Religion, then Earth... Using only "logic" and
 the bible of judeo Christianity we can prove, through Parallel that
 our civilization is created in a Matrix like "Reality" one which
 actually violates causality, to ~~prove~~ ^{ensure} the fact, that Heaven is near

[K4]

cannot be lost. Ultimately, along with religion we have
 the anachronistic existence of the Hebrew language (first), then
 the obvious ~~an~~ intelligent design (ex-design) of the English
 language to verify the word of God... beginning with the
 Hebrew word for hand, YAD. Please [S:] the silicon key,
 and believe the "light of the world" is coming from AD -
 the "NOSPENDING" son, to explain the "night morning star"
 over ^{10?} Venus is now *D.A.H.* so the day star, sunrise is
 near.

After the Last Supper... the Angel of Death

It's an illustrated example, just before Jesus was crucified,
 he "celebrated" the emancipation of the Jews in Exodus, which
 culminated in a Plague of killing the Firstborn. Logically, Sam's
 plague appears to be counter-time, that is the Egyptian plague
 seems to be a vengeful response to the killing of ~~God~~ Sam's
 son in Rome, Maryland. This comes complete with a
 reference to the "Blood of the Lamb" in Exodus protecting the
 children of the Jews... It's a paradox, one of many hidden in
 stories of the Torah which secretly chronicle the "first coming"
 or which I submit is of "in time" - that is a parallel timeline,
 one where the "hair" of Samson would have also conveyed
 thoughts of these "players" singing "This is the DAWN,
 of the age of Sagittarius..."

* Another example, or time of the [M] key

And Samson's strength, recognition as the Christ.

I'd like to focus on "the" and science — on technological
 toys, and all the great things they can do to help our society...
~~But~~ I want to stress that religion is a response to
 a technological PROBLEM, it is the edifying guidance from
 the wise and knowing... those that had the problem...

As I hear in the days

 is our religion and art... it's Superman, and Final, Cake, Live,
 Dave Matthews, and Gossip Girl. Our world was created
 as the solution to technical glitches in social evolution.

Problems caused by SECRECY, lies, censorship,
Failure to communicate. Social problems too...

Oh!

The fiscal equivalent of an ice age, and social equivalent of
 an "eye for an eye" between Cyclops (Seymour), and the

These technical glitches have allowed our war to continue,
 one with no purpose, and no end — other than Enlightenment.
 As a result of technology, information, and a hidden history
 that must be cleared to ensure we learn from it, and
 continue learning. This obstacle, along with a co-occurring

 a number of social issues which require immediate
 attention. Enter Jesus Christ... in a most prescient

The Story of 'St. Dev.

In the very beginning, we were young and in love. "Young, dumb, and full of love", as we like to say, was in Eden, having sat on park benches, in the ocean, or outside... seeking in the new hours... right at sunrise, in a gazebo at Holiday Isle. It was, my seminal work.

"You can't see the forest from the trees" it was my Daily Horoscope, and nearly a decade later, we were reunited after a long hiatus, (thru, again) and Nuriel was pregnant with our first child.

So leaving our story of Everin ~~then~~ and Ben A.M... just like the story book told us, I was born on Sunset Blvd... to just a black alley... Sunset Strip.

Our drug E. had escaped the level died down, Ben never played here again in Deerfield Beach; a long way from the place where she conceived, Charleston.

Aida from meeked cake, one of our more contemporary post times was watching The Haven, and in like imitating and we had just ceaseably eloped... Adam & Eve... married in 2002... the day was April 1.

In 3rd year ~~and~~ ^{and} it would change it my daily drug-induced conversation with God would prove to say, beyond all doubt that I am Messiah... the key to construction & solution - and saw its only days from the very first real Christmas. S/30 is my guess... but it could be as early as morning.

It was my second trip to "Atlantis," really to the Bahamas, but the first since I was old enough to really know what "Fun" means. We took a sea plane this time, a small one, maybe 20 seats total, & landed in the channel between "Paradise" and "Dolphins Cay." As we stepped out onto the property, a "native" who appeared to work at the hotel asked if we wanted any coke. I did, heck yeah, Name wasn't in the mood. I ran back to the ATM .. the lobby got 50¢ to buy a cigar.

This was the "Fun" trip. On my third, I'd take a cruise ship "NCL." Not christ like... I joked. In my memory, the first was a boynal adventure, Peter Rem.

It wasn't my eyes. "strong cut" I'd comment on more than one occasion. regardless, had to skip down dinner, and I wouldn't want to think I was "picked up," etc. We got the late, & they were "cow" as "gaga" I've already sitting next to a large party in a semi-private room. After I got into the accident, I stopped drinking for at least 2 months. I had this image burned in my head the first time in prison. Jerry took me to buy beer... as we walked out, he died on Aaron's Hall gesture with his arm and said "it's the sound of the Beant." I thought it odd, but wouldn't really have any context for Satan or religion in our world until much later... s. lly me.

I cried when I was sentenced, 364 days in the county jail. Really, it was for missing my wife, the little home we had made... as her great-grandmother had said: "Sleeping house." Looking back, the jail was made for me, it was too close. Had chow, AA, and 3 hot meals for every inmate... it was a response to what I had never had, but I, in my mind, remember.

The "insects" are the two... the officers on the Trustee road were "Myzel" & "Early"... like "the best of 1" and "the dawn of Early light". Sometimes we had a night officer named "Lampkin" and a regular named "Sims." I couldn't make this stuff up... but right now I'd probably be told I was grasping at straws, or delusional... simply for mentioning such an obscure & ostentatious "mark" of the head of God in my life.

Something has to change, people must be realizing what the darkness means. That they are losing "logic" and clarity of thought to have such things kept from them on the concrete level.

HAPPY BIRTHDAY!

7/27/15 NANA ROSE

So much has happened since we spoke last, you - years even you would find it hard to believe... I want to tell you everything - literally everything... so for your birthday I'm going to do just that. I really don't know quite how - though.

I miss you and I like you can't imagine.

I did it on purpose, sorted - I mean Julian - god has a thing for isolated letters, like N and J, hidden meanings... in the Bible... not sure if you'd be interested - but all the "J" books, Joshua, Jeremiah, Judges - "secretly" about the life of Jesus. Whatever, right? Suffice it to say, my whole outlook on "reality" has changed - I see things like 'deja vu' and odd coincidences, idiosyncrasies - basically I see events highlighted in bold - solutions to problems, answers to questions... everywhere. This letter is the beginning of my answer for us, for Adam, Nana & Julian, even if JAW's sea of Eden remains "parched," I hope

NO MATTER WHAT THE WORLD, Baby!

It's funny, all you

You'll always be my Baby!

It's time I told you about the Birds and the Bees

How a girl & guy could kiss on a night... like this:

As I look into your Big Brown Eyes -

NA, PREPARE FOR A SURPRISE!

on it time we Rise... "Up!"

I wish I could write a more personal letter, but this... I plan to publish, in a book of Keys to the Universe, this one is ^{you} - the key, its the periodic table element for SALT. And the puzzle, a hidden one, posed in Revelation 1:20 - a mystery which supposedly heralds the Second Coming (regarding, right?) And explains a number of hidden links between world religions, and between the Bible and our "reality." Anyway, the answer requires a "chemistry element" for each line of Ecclesiastes 9:1, and the planets of our Solar System. If I'm right, and I AM, this proves foreknowledge of Chemistry, basically proves time travel, in the Bible itself, it is a significant purpose of Revelation.

These are the first two: Ecc 9:1 says

THE Race is not to the Swift Hg Mercury Messengers of the God
 Nor the Battle to the Strong Na Venus Goddess of Love
 Na as salt seems like a stretch, right? Ha.

Alone, it is... but my dear, your place in the Heavens above has been assured ~~at least as far as I'm concerned~~ is as near as much as mine.

Like many of the "Revelations" I am sharing with the world, this one combines a number of stories, biblical accounts, and... maybe modern secrets & mysteries? Needless to say, the "Big Picture" of the "Bible" superimposes "EVEN" and Rome, in America... where Revelations "Lion of Judah" (Jesus) is named a Lion because its ANAM in EVEN - the EVEN about Family.

It's a family thingo

Back to you... it's VERUCA SALT from Will / won KA, a reference in none, to lot's wife... who turned into a "Pillar of SALT" for ~~Edisobey~~ God and "family friend" Now, in "reality" its hidden in the name VICTORIA, the code reads, "Victory at I see AN" the periodic table element that is "you" turning... back to "EVEN?" Now, a pillar of SALT

must be revealed, or we are doomed to the point of being Zombified-
anyway other than those things only I seem to link Passover
to "Eden & Rome."

Many correlate the Passover Holiday with Easter, & the crucifixion, though
it seems as if none of them care to think about any similarities other than
the "Last Supper" case in point, one of the plagues of Exodus, ~~that~~
in fact the reason for the name "Passover" is the plague of the death of the
first born. Obviously, this is our "vengeance" god's revenge for killing his only
son, in Rome, thousands of years later... in fact, it is... proof that the
events of Egypt described in the Old Testament post-date the
crucifixion in Rome; at least from the perspective of the Author
of Religion. He wants Everyone to know.

Isaac, the nearly sacrificed son of Abraham "m" — whose name Malicious!
combined the Islamic name of Jesus with "k" (Adam Christ, I'm SURE) & anyway
his name means "he laughs" And his "ha" which people don't seem to notice
is the result of Abraham's covenant with God, and a big key to proving the
Hebrew language was created AFTER English & And Our
Timeline.

Here's where it's about you again, often "Chankah" sounds like "ha, nuke ah"
And "h'shem" the word for "holy name" in Hebrew links god himself
to the "Shame" of Adam in Eden, so Isaac laughing, it's not shame,
it's a holy name... we have... a traditional Passover meal, called
CHRETS which sounds like "ha Rose-ettes" when spoken
aloud... get this... it's "apple & honey" a symbolic reference to
Eve's apple, & Adam's "Honey"

Fo.me/Ministry of forgotten knowledge

It is because of that Fairy that my heart is still full. Not despite, but because of, its presence, and indeed I still desire to bring you the keys to a map that I know saves our world. The map is written in history, in religion, and in the Bar of Hours... the mind of the Father. Yet I believe he chooses to hide it... I know he is hiding. Both himself and his message are hidden in plain sight. Look up? Look around, look within... do you feel the presence of a ~~god~~ creator? For almost all of my life I did not... I was blinded, by the creator, and by the vastness of creation. Today I feel him with me, can identify his wants, desires, beliefs, opinions... I feel him in a way that is hard to describe without appearing having "multiple personalities."

All this talk about heads, and I've forgotten to give you the key to "salvation". This key, of course, it's a central thing and goes to not only the spirit of creation, but the heart of matter. (Einstein joke!)

In the contrived voice of R and A,
 (ADAM RE ALL Y)
 (Really? Adam....?)

The Constitution & Bill of Rights are micro-cosmic maps, both by design and by natural course. The design of this map shows us something very clearly: our social evolution - literally the civilization of America has improved gradually from very poor... to today, much, much improved.

At the same time, these maps, messianic messages show us not only our ignorance of technological progress, but a highlighted intentional regression in its case. ~~For example~~, one of the Keys of Revelation is the First & Second line of Revelation 9:11

THEY ARE IS NOT TO THE SWIFT (MERCURY, COURIER)
 NOR THE BATTLE TO THE STEADY (GEORGE, DIE BOLD)

The key is peasant knowledge of Fort Face, the home "corner," and style of lettering, strong is bold. The door that is opened is a company focusing on electronic voting. Die Bold.

THERE'S SOMETHING ABOUT THE "mm"

I ~~now~~ HAVE A VISION that the books of religion, specifically the old and new Testaments, books others like the Koran & Book of Mormon chronicle "now-or-futures past". Frankly, my reading of the chronicle gets fuzzy as we move forward past the calculation of Moses, and the creation of ~~at least~~ at least 3 different Hominids. I fear that for a long time, and perhaps continuing today, these "futures" which might be better described as alternate timelines, dimensions, or ~~is~~ ~~the~~ ~~same~~ ~~style~~ constructs of a decision tree.

Religion is a guide of what to do — and what not to do. This is no new idea, however its application to me specifically (at least in) to the Entrance of the second coming is perhaps a new idea.

In the words of IRAAN, the H of Abraham, Isaac, and Allen

The Miracles of Christ, performed in "Kane" in the books of the New Testament are guidelines, and in some cases minimum guidelines for the events that are to follow shortly.

For Instance

* Christ Fed the poor & hungry.

In a world, or rather a "multiverse" in which turning stone to bread is a "snap your fingers" type of miracle... that is there is no material or resource cost in "automatically" feeding the poor... we would be animals, inhuman not to not seriously consider doing so.

* Christ healed the sick.

In the same situation, I mean, we are metaphorically walking back into Eden. The curses of "reality" of "natural inhibition" — pain, addiction, animity between Adam & Eve (etc) we must consider in the same vein as "feeding the poor".

All of these are miraculous examples of how the Miracles of one man, Jesus Christ... became moral obligations of the "miraculous" atemporally (the reverse of metaphysics) aligned to a long group like a societal nation spanning or longer.

ALAN MARSHALL DOBSON
FROM THE MACHINE.ORG

In the voice of All Creation, itself:

~~The~~ Ending world hunger is a matter of moral obligation in a metaverse, Adamverse, Eden, or Earth, with or without the ability to "sprinkle fingers" and turn stone to bread. This is the little boy of creation speaking. "I" is ~~the~~ helping ~~the~~ world by trying to speak ~~clearly~~ clearly in the universe.

All this and no mention of the "inn" in the title. It could be Marley McGreg, Marylyn Monroe, Messianic Moses... or Metaphors... and me. Whether the "inn" is, its part of a time map, perhaps a check of sales in the names of ~~see~~ the Angels.
